

## EMECO WARRANTY

### **EMECO 5-YEAR WARRANTY:**

111 Navy Chair® (2 year outdoor warranty for Red, Snow White and Flint Gray). The Emeco 111 Navy Chair® is built in accordance with the highest standards of design and manufacture. Emeco warrants, to the original purchaser, all chairs and tables to be free from defects in material and workmanship under normal use and conditions for 5 years from date of receipt.

This warranty also does not include factory upholstery, scratches or discoloration and deterioration to rPET plastic (due to harsh cleaners), or floor glide wear.

Emeco will replace or repair defective furniture covered by this warranty. Customers must call 1 717 637 5951 to report a claim, and items must be shipped, prepaid to: Emeco, 805 Elm Ave., Hanover PA USA 17331. In no event shall liability under this warranty exceed the original purchase price of defective furniture.

This warranty does not apply to furniture damaged by accident, abuse, neglect, or misuse, nor does it apply if repairs are attempted by purchaser or by anyone other than an authorized Emeco agent or the Emeco factory.

## ENVIRONMENTAL INFORMATION: EMECO INFORMATION

### **ENVIRONMENTAL ISSUES**

The recycled aluminum content used to make Emeco chairs is 80%. Of the recycled aluminum, half is post consumer (soft drink cans) and half is postindustrial (manufacturing scrap). Chairs made out of virgin aluminum have an energy density that is 17 times higher than that of Emeco chairs. Emeco all-aluminum chairs are 100% recyclable. The 111 Navy Chair® is made of at least 111 rPET plastic bottles (up to 65% of the total weight of the chair) and is recyclable.

The Emeco factory in Hanover PA conforms to all applicable US, State and Local environmental regulations.

It is important to note the recycled content, and recyclability of Emeco chairs but in addition, and perhaps even of greater significance, is the aspect of lifetime costing. Emeco all-aluminum chairs have an estimated lifespan of 150 years or more, making them a sound investment in every way.

### **LEED™ CERTIFICATION**

No product can be LEED™ Certified; certification is only granted to the entire building or interior. A project is LEED™ Certified by qualifying for credits that accrue when environmentally sound choices are made in the design and building process. Product choices can help the project qualify for LEED™ Certification by being environmentally

sound. Some jurisdictions require new construction to have a minimum number of LEED™ Credits.

Specifying Emeco aluminum furniture contributes to credit #2.1, Construction Waste Management because Emeco uses 100% recyclable shipping and packing materials. Specifying the Emeco 111 Navy chair ® contributes to credit #4.2, Recycled Content because it is made of 65% post consumer recycled material. The 111 Navy Chair is recyclable – contact Emeco for more information.

Specifying Emeco aluminum furniture contributes to credit #4.2, Recycled Content because it is made of between 80% recycled aluminum; 40% post consumer recycled material and 40% post industrial recycled material.

Specifying Emeco furniture contributes to credit #5.1, Regionally Manufactured Materials when shipped projects within 500 miles of our Hanover, PA facility – cities on the East Coast from Boston through Washington, DC. In addition, the recycled aluminum used in Emeco products is processed in Baltimore, MD, adding another credit contribution.

Aluminum does not emit VOCs or aldehydes in any measurable concentration, therefore off gassing requirements are not applicable.

LEED™ (Leadership in Energy and Environmental Design) is a division of the US Green Building Council, a government sponsored organization whose goal is to promote environmentalism in the building industry. For more information visit [www.usgbc.org](http://www.usgbc.org).
